

Commissioner Cher Woehl

Cher is a new member of our community who relocate to Frederick in July 2010 from Sacramento, California. Cher is retired from the California State government where she served as a Deputy Director for the State's Income Tax Department and the Department of Child Support Services.

During her 35 years in government, Cher was very active in programs that addressed the needs of woman, single parents and families. She established the Woman's Advisory Committee which provided a forum for addressing woman's issues in the State's workforce and was a member of the State's mentoring program which assisted with the career development and education of woman and teens.

As the economic problems continue to grow, Cher believes the Frederick County Commission For Woman will provide an excellent opportunity to help the woman and families of our community through these difficult times. Cher attended California State University at Sacramento majoring in business and education. She currently resides in Frederick and is a volunteer at Frederick Memorial Hospital.
